

ABLOY® EP402 Microswitch lock

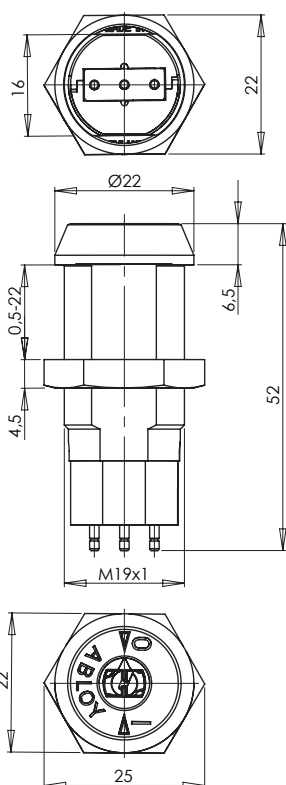

Product description

Key-operated switch locks provide key-actuated switching for burglar alarms, control boxes and other high security applications.

Overview of Advantages

- The key can only be removed in the off position of the switch.
- The instantaneous coupling is achieved by means of a return spring and the key cannot be left in the on position.
- The locks can be mounted on objects with a thickness of 0.5 to 22 mm.
