

ABLOY® PLLW342 Electromechanical CLIQ Super Weather Proof Padlock

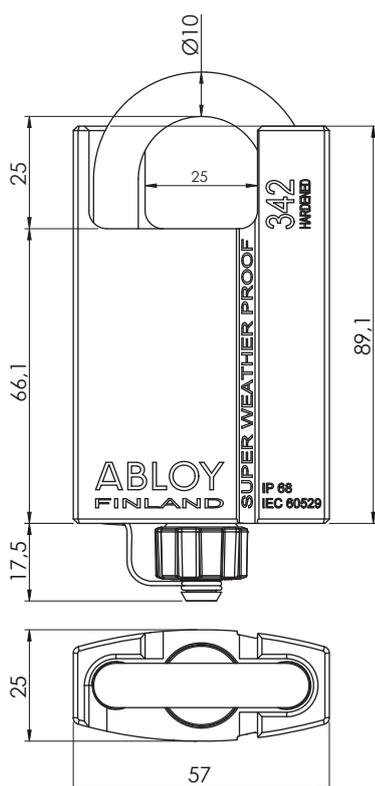

Product description

Tough, surface hardened steel padlock with electromechanical CLIQ Super Weather Proof Padlock with IP68 protection for all conditions.

Lock is operated with an electronic CLIQ key.
Key can be removed only in locked position.

Overview of Advantages

- Durable construction for harsh environment
- Shackle sealed and weather seal cap for keyhole
- Corrosion resistant
- Suitable for heavy duty locking. The hanger features the protective shoulders that make it impossible to break the lock with cutting and torsion tools. Strong padlocks are used for e.g. gates, warehouses and rackets.

Technical data

Available key systems	PROTEC CLIQ, PROTEC ² CLIQ
Body	Case-hardened steel, bright chrome (Cr) plated
Body size	57 x 25 x 66,1 mm (width x thickness x height).
Shackle	10mm case hardened boron steel, height 25mm, bright chrome (Cr) plated
Environmental protection	IP68
Weight	0,71kg

Cylinder memory

- 1800 authorized key groups and programming keys together, theoretical maximum 65535 keys in each group
- A list of 3000 denied keys
- Audit trail of last 2000 events
- Audit trail of last 20 events from keys in other systems
