

Fire prevention magnetic door holder

Magnetic door holders are used in fire protection doors. These holders keep the doors open during day to day operations. When smoke is detected the fire alarm transmit a signal which cuts off the power feed and the mechanism releases the door. This avoids fire and smoke expansion. These door holders also have a push button which allows releasing and closing the door manually.

Door holders can also be installed in any door that needs to be kept open.

Product code	Description
CEM4024PB	Magnet and adjustable keeper plate

Technical features

- » EN 1155 Certified
- » Holding force: 40Kg
- » Voltage: 24Vdc (1,6W)
- » Electronic protection integrated
- » Protection magnet :IP54 / connexion: IP42
- » 30% Glass fibre housing , resistant to shocks, color deterioration and corrosion.
- » Articulated armature plate (ajustable up to 60°)
- » Interchangeable cable entry
- » Interchangeable push button position
- » Reliable, no mechanical part
- » Without residual magnetism
- » Silence operation
